

FISHING IN TURKEY

1- Write letter „T” if the statement is true, and letter „F” if it is false!

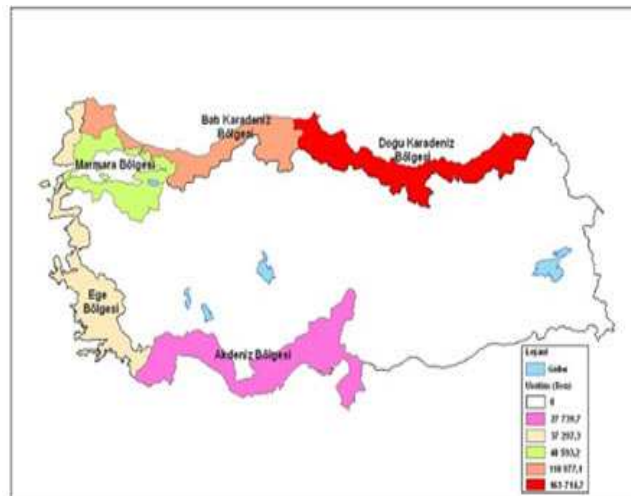

- a. The most important reason we do not develop our fisheries is that we do not do coastal fishing
- b. Mediterranean takes first place in the seafood production
- c. Our fish consumption is not too much because of our culture
- d. The most fished species of fish in our seas, is salmon and turbot

2- Fill in the gaps with the words given

“storage, technologic, hunting, coastal, shipping, sea“

Reasons of fishing not being developed enough in Turkey: We have commonly ...(a)..... fishing, we don't have(b)..... ship, lack of facilities in(c)....., and(d)..... ,not obeying(e)..... ban and(f)..... pollution.

3- Fish production areas are showed on the map. According to this information answer the questions.

- a) Which of our coastal region has the maximum amount of fish and its production? Write its reasons.
- b) Which of our coastal region has the most various kinds of fish? Write its reasons.
- c) Which of our coastal region is on the way of fish migration?
- d) Where is pearl mullet farmed?

4) Write a text containing these words “health, Black Sea, saurel, omega 3 fatty acid, culture, and trout.

Solution

1)

T	F	T	F
---	---	---	---

2)

- a) COASTAL
- b) TECHNOLOGICAL
- c) SHIPPING
- d) STORAGE
- e) HUNTING
- f) SEA

3)

- A) The coasts of Black Sea region because big rivers flow into this sea, It is cool due the heavy rains and latitude and this increases the amount of oxygen so does the amount of fish.
- B) The coast of Mediterranean Region because of the latitude the weather is hot and this increases the variety of fish.
- C) The coasts of Marmara Region because of Istanbul and Çanakkale Bosphorus
- D) It is farmed in estuaries of rivers flowing into Van Lake.

4) A text that will be prepared by students. A sample text:

“For our health we must consume fish regularly, which is very rich in terms of Omega 3. Black Sea coast is one of the most common fishing coasts in Turkey. The most hunted sea fish is saurel. Culture fishing has increased recently and the most produced kind is trout”
